

Back Door to Start New Offering

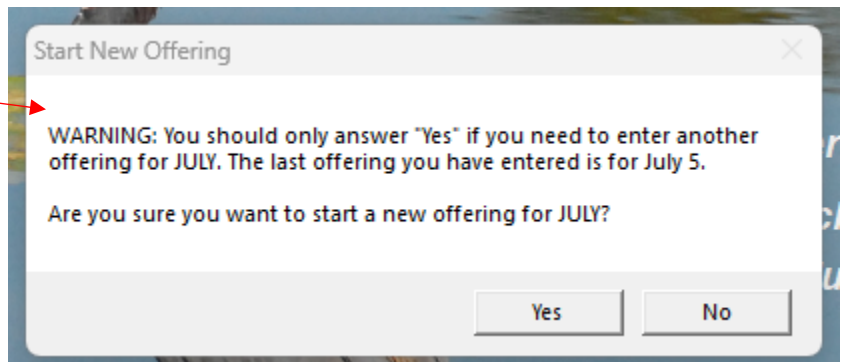

If your next step is "Remit to Conference" but you need to enter another offering, you can return to "Start New Offering" using a secret back door. Ok, not a secret, but very handy.

Click on "Offerings" on the top bar then click on "Start New Offering."

Jewel will give you a warning message like this: but if you click on "Yes," you will be set up to enter another offering.

If you have already remitted, this back door trick won't work and you will need to ask for assistance.

For more JEWEL BASIC PROGRAM FEATURES tutorials, see section 7000 on the gccsda.org auditor webpage.
